BONUS PLAN HITS SNAG RED HATS TO AMERICANS

Payment Form Is Obstacle

House Committee Votes 16 to 4 to Draft New Soldier Measure

Map Insurance and Option of Cash or Policy Under Discussion

BY A. P. NIGHT WIRE
WASHINGTON, March 6.—Senate legislation got a long start at the first executive meeting today of the House Ways and Means Committee when it voted 16 to 4 to frame a bill, but was stuck when the form of payment was discussed.

Amendment was centered on two one-dollar insurance policies, one ten-dollar scheme with option of cash or insurance.

After a heated discussion of the merits, marked by a spirited and witty battle between Representatives of the House and the Senate, further consideration was postponed until tomorrow.

ROADWAY TAKES ISSUE
Representative Treadway was in favor of voting against any bonus and, when Mr. Treadway later charged the committee with dilatory tactics, which were aimed at delaying progress of the legislation, Mr. Treadway retorted.

He went on to another and more serious charge when they started on the other three who opposed the measure. Representatives Tillman, Mills, and Miller, of the House, furthered the discussion.

Cardinal O'Connell, Archbishop of Boston, has been in conference with Vatican officials for several days. He expressed delight today in the representation of his country which had come to four.

It is certain that additional red hats will be allotted at the coming consistory, but the Vatican is maintaining the closest secrecy concerning the names.

NEW YORK REJOICES

NEW YORK. March 6.—New York's Roman Catholic population, larger than that of Rome itself, voted today to become patriotic, Archbishops Patrick J. Hayes and Archbishop George W. Mundelein of Chicago, had been nominated to receive the coveted red hats of a cardinal, the ceremony at Rome on the 26th inst. Satisfaction also was expressed by the many non-Catholic friends of the prelates who are popular in the metropolis.

The archbishops on Monday had issued a statement to the press to the effect that they had no desire to go to Europe on the liner *Bremen*, as orders from the apostolic delegates at Washington. Archbishop Mundelein was on the way to night from Chicago.

FUNERAL OF MRS. KING CONDUCTED

Daughter of Well-Known Escondido Banker Killed in Hunting Accidents

BY EXCLUSIVE DISPATCH

ESCONDIDO. March 6.—The funeral of Mrs. J. H. King, a native of Escondido, in which city she died until her marriage to Mr. King, three years ago, when she moved to Yuma, Ariz., was conducted in San Diego yesterday.

Rev. H. E. Clowes of National City, a former pastor of the Episcopal Church in Escondido, and who officiated at the wedding of Mr. and Mrs. King, was in charge.

As a mark of respect all the banks of Escondido and the Chamber of Commerce were closed during the funeral.

Mr. King was the daughter of Mr. and Mrs. A. W. Wohlford and the sister of B. G. Wohlford. Mr. Wohlford, junior, vice president of the Escondido National Bank and president of the Escondido Chamber of Commerce.

Notified by phone of the death from accidental discharge of a shot gun while on a hunting trip Saturday, Mr. Wohlford, junior, hastened to Yuma, whence he and Mr. King accompanied the body to San Diego. Mr. and Mrs. Wohlford, the parents, were notified of the tragedy by cable.

JUGO-SLAV LOAN DEAL CONCLUDED

Part of \$200,000,000 is

Subscribed by American Interests

BY CARL—EXCLUSIVE DISPATCH

PARIS. March 6.—It is announced that an Anglo-American syndicate, backed by John D. Rockefeller and London and Amsterdam banks, has concluded a loan of \$200,000,000 to Belgrade, guaranteed by all the factories and industry in Jugoslavia with interest at 17 per cent the first year, and decreasing to 14 per cent in succeeding years, with a sinking fund beginning ten years hence.

The loan is regarded as significant coming on the heels of the Paris-Jugoslavia accord. Jugoslavia is considered as having Italy and France from participating in the Jugoslav resources and market, as it is understood that a revision of customs will be negotiated favoring British merchandise and finance.

INDIANS BESIEGE OAXACA

Loyal Forces Believed Forcing Evacuation of City by Revolutionary Governing Body

BY CARL—EXCLUSIVE DISPATCH

MEXICO CITY. March 6.—Oaxaca, capital of the State of Oaxaca is under siege by Indian tribes, men loyal to the government who, since the beginning of the revolution, have been carrying on hostilities against the rebel Governor, Manuel Garcia Vigil, according to private information received here today. It is said that the revolutionary government in Oaxaca is evacuating the city with the intention of establishing headquarters at Mixhuacan, sixty kilometers to the south.

Tomolin Canyon northwest of Oaxaca, has fallen into the hands of the Federal. The winning of the canyon leaves the road southward to Oaxaca open, and the occupation of it by the rebels is the outcome of forty-eight hours of excitement over the identity of the two Congressmen who, according to report, are:

John W. Langley, Republican, representing the Tenth District of Kentucky, chairman of the House Committee on Public Buildings and Grounds.

Frank N. Zihlman, Republican, representing the Sixth District of Maryland; chairman of the House Committee on Labor.

ASSERT INNOCENCE

For more than forty-eight hours both Mr. Langley and Mr. Zihlman have been aware that their names were being connected with the Chicago grand jury charges and have been confounding with their friends on the situation in which they find themselves. Both assert their innocence of any charge of wrongdoing of what is charged.

Mr. Langley sat through the debate on the House resolution and afterward when asked if he is one of the two Congressmen who are to be tried, he said, "I am not."

TO RAISE WHEAT TARIFFS

President Will Order Increases of Rates Under Flexible Provision of Present Law

(BY A. P. NIGHT WIRE)

WASHINGTON, March 6.—Increases in tariff rates on wheat, flour and wheat products will be ordered tomorrow by President Coolidge, acting under authority of the Fordney-McCumber Tariff Act.

Proclamations setting forth the new rates on wheat products will be issued to wheat millers by the Bureau of the Census.

The new rates will become effective thirty days from the date of issuance of the proclamation. The present duties are 30 cents a bushel on wheat, 75 cents a hundred pounds on flour and 16 cents over February, 1923, and 15 per cent over February, 1922.

FILIPINO BOYCOTT DENIED

Reports Declared Unfounded of Ban on American Goods in Protest Against Fund Decision

(BY WALTER ROBB)

(BY CABLE—EXCLUSIVE DISPATCH)
MANILA (P. I.), March 6.—Reports come from Washington that a boycott has been put into effect here against American goods, in protest against the action of Insular Auditor Wright; who has declared the propaganda fund illegal, are unfounded. There is no boycott against American goods in the islands and the majority of Filipino leaders and merchants would oppose such a movement.

It is believed here that the boycott canards reaching America are emanating from an unscrupulous politician in the Bureau of Insular Affairs, who is seeking to advance his own ends by keeping matters stirred up.

It is true that a handful of Latinized Malays in their first fervid

BANKRUPTCY RING ALLEGED

Six Lawyers and Eleven Merchants Face Indictments in Chicago and New York Failures

(EXCLUSIVE DISPATCH)

CHICAGO, March 6.—Exposure of a bankruptcy ring, consisting of half a dozen lawyers in Chicago and New York, and eleven merchants, alleged to have swindled Chicago and New York wholesalers out of \$250,000 by a series of "failures," has been made public today.

It became known that Asst. U. S. Dist.-Atty. Harold Hart was prepared to go before the Federal grand jury and seek indictments against the lawyers who are said to have been retained at high fees by the other members of the ring.

TEN ARE INDICTED

Last week the February grand jury indicted Daniel T. L. Leader, T. Benjamin Morse, William Weinstain, Joe Domash, Charles Goldstein, A. Goldstein, Frank J. Berta, Aaron Sherman and M. Molinsky for concealment of assets.

An ingenious method was used by the merchants and lawyers to defraud their creditors, it was reported at the Federal Building. Since no merchant would start a store in a suburb of Chicago or a small town in Illinois.

OBTAINED GOOD RATINGS

At first, they would open all wholesale accounts promptly and thus obtain good rating. Later, when their credit was established, they would place large orders with all wholesale houses, who would, in turn, dealing. About this time the other members of the ring would file an involuntary petition in bankruptcy against the merchants, alleging that they had been prior to those of the wholesale.

JEWEL ROBBERY FIGURES RETURN

Buffalo Woman and Actor Come from Europe

Sensational \$300,000 Theft Being Cleared

Man Deplores Bringing of Name Into Case

(EXCLUSIVE DISPATCH)

NEW YORK, March 6.—Slightly veiled under the name "Miss Schoelkopf of Buffalo," Mrs. C. P. Hugo Schoelkopf, victim of a \$300,000 jewel robbery which stirred the city New Year's Eve, 1922, returned from Europe today on the Cunard Liner Berengaria. Frank Barrett Carman, near whose apartment at 64 West Fifty-second street, she was robbed, also was a passenger.

Mrs. Schoelkopf was silent. She was the most inconspicuous jewelry. Carman, however, broke his long reticence with his first interview concerning the crime. He declared himself innocent and deplored the fact that he is now a "marked man" and has lost his "means of livelihood." Since Mrs. Schoelkopf called for Europe more than \$12,000 of the \$300,000 was recovered. One man is in prison for the crime and two more await sentence. A third, John Mahan, is still at liberty on bail. It was still in his vindication that he was innocent and involved in the entire affair," said Carman.

"He's the man in the Schoelkopf case," said Carman.

Carman said the report that Mr. Schoelkopf had sold his home in Buffalo did not indicate separation. He saw nothing unusual in the fact that he was traveling abroad with Mrs. Schoelkopf.

REGIMENT SCORED

There are, of course, a number of organizations here which have considerable membership and which may be politically manipulated against America. Among these are the student bodies. Therefore the situation will not be far from displeasing incidents in the Hill Countries, referred to as ceded territories as "possessions," and provides a government where the Federal participation will be commensurate with Federal responsibility instead of the present arrangement which is wholly in the power of a single element of the territory's inhabitants, dominated by leaders who have inherited their political ideas from Spain.

Commercially the islands are developing, although favorable trade balance is shown. The trade with the homeland continues in proportion to American production as compared with the cost of producing the same in Europe.

America, however, is favorably influenced by the lower transportation cost to the islands.

TRADE GROWS

Prior to the establishment of American sovereignty in 1898, the trade between the United States and the Philippines was unimportant but since then it has totaled \$1,600,000,000, according to Chamber of Commerce figures.

Leading Filipino merchants and industrialists point out that the American government output of capital has not increased materially since 1914, because agriculture, which is the chief source of wealth in the islands, is not advancing and will not advance until there is a better climate.

"But she's my patient," Gill is assured by his protégé. Mrs. Gill also charged that her husband refused to provide her with money or clothes.

CHECK SUSPECT HELD

Assistant Captain Winn, head of the police check detail, yesterday was investigating the asserted activities of Henry W. Bullen, who was arrested by Capt. Dunn and Sheriff's Lieutenant Mallison in connection with the killing of a kidnapper of a passenger steamer.

The killing cannot come until the status of the territory's relations with the United States are fixed.

GIRL BANDIT SAYS SHE'S ON VACATION

Brooklyn's Bobbed-Hair
Store Robber Comments
on Shooting Order

EXCLUSIVE DISPATCH
NEW YORK, March 6.—Holding up stores is not a strain on one's nerves. It becomes worse when there is a horse, you know, and is likely to throw away one's speed in playing bridge. Really, you have no idea what a tiresome job it is.

The Brooklyn's bobbed-hair bandit, commonly known as Capt. Carey, in charge of the Brooklyn Detective Bureau.

Although Capt. Carey did not make public the letter, written in pencil and in capital letters to dislodge the horse, he did call a conference of all detective in the Borough and read the communication to them.

It was learned that the young woman explained the two weeks' let-up in her activities by announcing that she had gone on a vacation to recover from the stress of overwork. She said she had heard of Inspector Wakefield's transfer to Williamsbridge and of Inspector West's transfer to the downtown part of Brooklyn. But she added, she was not afraid of West or any other policeman.

The elusive feminine bandit also commented on a "standing order" to the police to shoot any kid who should be hanging around. "That's the order," she wrote, and she threatened to "get" any policeman who tried to shoot her. "If I don't fire," she was quoted, "some one else will."

GIRL PRISONER, CLOTHING HELD

**Police After Hearing Story
Arrest Nine**

**Blonde Stenographer Victim
of Trickery**

**Decoy Obtains Information
for Charges**

(EXCLUSIVE DISPATCH)

PHILADELPHIA, March 6.—After a 19-year-old girl had sobbed out a tale of having been divested of her clothing and held a prisoner for two days, Capt. Souder and detectives descended on an apartment house on Eleventh street above Pine, in a midnight raid, arresting five women and four men. Investigation by detectives, based on the girl's statement, is said to have revealed the place as disreputable.

The girl, an attractive blonde stenographer, gained her liberty when her appeal awakened the chivalry of a young man frequenter of the place who aided her to escape from the clutches.

In the raid police arrested the alleged proprietor of the place, four women inmates, a colored woman who acted as housekeeper, a Chinese handyman and two other men said to be visitors there.

STRIPPED OF CLOTHES

Friends of the girl victim took her to Capt. Souder's office soon after she gained her release several days ago. Between the two, the girl and the detective, the police told of having gone to the apartment in answering an advertisement for a stenographer. Until recently, she had been a stenographer for the Pennsylvania Railroad.

When she applied in answer to the advertisement she was met at the door, she said, by a colored woman who escorted her to a room on the third floor. As she entered the room the woman locked the door behind her and from another room came two other women.

They ordered her to take off her street clothes, she said, and when she objected they laughed at her pleas and tore her clothing from her. She was then stripped and left on the door but persons passing in the hallway paid no attention. The window of the room opened to an awesomely, so that she could not summon aid in this way. The colored woman brought food to her room.

YOUNG MAN ASSISTS

Finally a young man came to her room and was moved by her tearful appeal. He went to another room and got some clothes, and they fled from the place.

Capt. Souder sent a "decoy" stenographer to answer the advertisement by the proprietor of the place. A detective who posed as a friend obtained her information after she had gotten information on which charges will be pressed against the proprietor.

The proprietor gave his name as Paul G. Crouse, and said he lived on Chestnut street near Fifteenth.

At the time of the raid, he was in the building. They found two young men with two young women standing in the hallway arguing. The young women were in tears and were allowed to go to their homes under escort of protection.

The two young men, James McGovern and Lawrence McDonald, were arrested.

EXCLUSIVE DISPATCH

CHICAGO, March 6.—Just to show that he had not overlooked Chicago, the March Lion roared a little in the city today and swished his tail over the upper Mississippi Valley, threatening to do the same in the weather forecaster termed a "moderate snowfall" through the entire region.

The forecaster predicted the snow would continue through the night, with the thermometer descending to about 22 degrees above zero. Friday continued cold weather is expected, with 20 degrees or less in the day. No marked upward flight of the mercury within the next few days was visible from the weather forecaster.

The storm centers over Lake Superior and low barometers extend as far south as the mouth of the Mississippi, where a secondary storm center is located. In Saskatchewan, Canada, the thermometer registered 8 and 10 degrees below zero.

MOSCOW, March 6.—Holding up stores is not a strain on one's nerves. It becomes worse when there is a horse, you know, and is likely to throw away one's speed in playing bridge. Really, you have no idea what a tiresome job it is.

The Brooklyn's bobbed-hair bandit, commonly known as Capt. Carey, in charge of the Brooklyn Detective Bureau.

Although Capt. Carey did not make public the letter, written in pencil and in capital letters to dislodge the horse, he did call a conference of all detective in the Borough and read the communication to them.

It was learned that the young woman explained the two weeks' let-up in her activities by announcing that she had gone on a vacation to recover from the stress of overwork. She said she had heard of Inspector Wakefield's transfer to Williamsbridge and of Inspector West's transfer to the downtown part of Brooklyn. But she added, she was not afraid of West or any other policeman.

The elusive feminine bandit also commented on a "standing order" to the police to shoot any kid who should be hanging around. "That's the order," she wrote, and she threatened to "get" any policeman who tried to shoot her. "If I don't fire," she was quoted, "some one else will."

MILWAUKEE

MILWAUKEE, March 6.—That John Hopartony, a bachelor living in a cabin on the outskirts of Siren, was slain for money he is alleged to have hoarded, and his cabin burned in an attempt to destroy evidence of the crime, was the finding of the verdict returned by the Coroner's jury which investigated the man's death. His charred body was found in the ruins of his cabin last Friday and it was found believe he had been burned to death in the fire, which was attributed to accidental origin. No trace was found of a considerable sum of money which Hopartony was said to have hidden in his cabin.

Income-Levy Reduction Will
be 25 Per Cent

BY GRAPTON WILCOX

EXCLUSIVE DISPATCH

WASHINGTON, March 6.—Administration leaders in Congress have decided to reduce income taxes 25 per cent at once, regardless of the tax reduction bill which is having hard sledding.

Emergency action by resolution before the 15th inst., the last day for filing returns on 1922 incomes has been agreed to by House and Senate leaders. It will not then be necessary to rush action so fast on the general tax reduction bill as the Senate bill, with the Republican leaders feel they will be in a good position with the country, no matter what happens to the tax bill. Even if the President should veto the bill and take the issue to the country, the will be no great difficulty.

Republican leaders are confident that even the Democrats will not dare to vote against an emergency tax reduction.

The agreement was reached following conferences between Representative Green, Republican, Iowa, chairman of the Ways and Means Committee, and Senator Smoot, Republican, Utah, chairman of the Senate Finance Committee. They decided that a 25 per cent reduction resolution on 1922 incomes was feasible and the Finance Committee later favored the proposal.

The resolution must originate in the House. Representative Green plans to bring the matter up before the House Ways and Means Committee at a meeting tomorrow. Emergency action will be sought in the House under a suspension of the rules. Only about sixty members of the House voted against the proposition when it came up in connection with the tax bill and no difficulty is anticipated in connection with the Senate's resolution.

Sentiment in the Senate also is understood to be such that the resolution can be passed without difficulty.

MAY HINDER BILL.

If the reduction on the taxes for last year's income is provided for in this manner it may become more difficult to enact permanent legislation than the Mellon plan of the supporters of the Mellon plan for some time have urged that the retroactive tax reduction be provided for separately and that the permanent tax bill be held up until next winter's session. By doing so, the Senate's action on the permanent tax bill the theory is that the tax bill will become an issue in the Presidential campaign.

If the Republicans win after making the Mellon plan an issue, Congress would be expected to reduce taxes to the level of the Mellon program.

(BY A. P. NIGHT WIRE)

NEW YORK, March 6.—Agreement between the Southern Pacific Company and the Western Pacific Railroad Company for joint use of their tracks between Alazon and Weso, Nev., for fifty years, thus giving each company a double-track service for 183 miles, was announced today.

SAN FRANCISCO, March 6.—Announcement in New York of an agreement between the Southern Pacific Company and the Western Pacific Railroad Company, providing for the joint use of their tracks between Alazon and Weso, Nev., for fifty years, was welcomed by western shippers today as an important and beneficial step in railroad development of the adjacent territories.

The arrangement, giving each company double-track service for 183 miles, will make possible an easier and more rapid movement of greatest traffic and enable utilization of greater traffic carrying facilities of a large portion of the trackless, railroad officials point out.

STATEMENTS MADE

The following summary of the agreement was made public here by William Sprague, president of the Southern Pacific Company, and C. M. Avery, president of the Western Pacific Railroad Company.

"The Southern Pacific Company and the Western Pacific Railroad Company announce that they have entered into an agreement which briefly may be summarized as follows:

"(1) To use each other's tracks between Alazon—near Wells—and Weso—near Winnemucca—in the state of Nevada, a distance of 183 miles, for a period of fifty years, giving each company the benefit of double-track service for that distance.

"(2) Between Weso and Chico over the distance of 183 miles, the Western Pacific will handle traffic for the Southern Pacific as occasion may arise, over its lines as a bridge, this arrangement including Sacramento Northern as a section of the bridge between Oroville and Chico. The minimum traffic to be moved over the bridge in any one year is one-half of traffic moving to and from Oregon points on the Southern Pacific and Ogden excluding live stock and perishables.

"(3.) The Southern Pacific Company will perform a bridge service between Sacramento and Sacramento for both the Sacramento-Northern and the Western Pacific. At this time the Suisun branch of the Sacramento-Northern is isolated from the rest of their property.

FRUIT CARS LEASED

"The Pacific Fruit Express Company will perform a bridge service between Sacramento and Sacramento for both the Sacramento-Northern and the Western Pacific. At this time the Suisun branch of the Sacramento-Northern is isolated from the rest of their property.

These were the chief developments in the fast-moving train of events caused by Federal Judge Morton of Boston, granting a petition for injunction against the firm and closing its fifteen offices scattered throughout the country. Headquarters of the company are in Boston.

Redmond, proprietor of the shop, had a meteoric rise. Five years ago he was a croupier in a Boston bawdry and lost his start in a high-stakes game. He found a job in the restaurant. His arches broke down and while convalescing in a hospital he evolved the stock-selling scheme which has grown to great proportions. His shoe-store rapidly grew into a million and within a year his firm was employing 1000 clerks and salesmen.

IRRIGATION DISTRICT APPEALS FROM RULING

WILL CONTINUE FIGHT BEGUN
OVER EXCESS WATER CHARGE

(BY A. P. NIGHT WIRE)

WILLOWS, March 6.—The Glenn-Colusa Irrigation district has filed an appeal to the State Supreme Court from the decision of Superior Court that its claim for water, used in its irrigation, was discriminatory and illegal, it was announced today by representatives of the district.

The decision held that the irrigation district had the police power which would have enabled them to regulate the quantities of water that could be used in certain types of land, and that they lacked proper authority to do so.

The directors held that certain rules and regulations were necessary for the protection of the land.

FARMERS MAKE TRIP TO IMPERIAL VALLEY

(EXCLUSIVE DISPATCH)

BRAWLEY, March 6.—Twenty-four farmers from the Middle West, arrived here today on a personally conducted tour to the Imperial Valley.

The visitors were in charge of L. C. Smith and J. Stanley Rogers of Kansas City, who have been with the committee of the Brawley Chamber of Commerce and realty boards of Brawley and El Centro to show valley farm land to prospective buyers with a view to attracting residents and capital to the valley.

The special car of the homesickers was set out of the train at Brawley and the visitors were to make their headquarters here during their two-day stay in the valley.

(LOCAL CORRESPONDENT)

LANKERSHIM, March 6.—Rush work was being carried on by the Chamber of Commerce committee in arranging for the Trans Home exposition to be held here the 19th, 20th, 21st inst. But suddenly it is all off. The merchants have decided that no show will be given at this time.

GASOLINE PRICE WAR IMMINENT

Public Not to Benefit by
Battle Between Sinclair
and Standard

(EXCLUSIVE DISPATCH)

CHICAGO, March 6.—A price war is about to break between the Standard and Sinclair Oil Companies. An immediate average slash of 2 cents a gallon on gasoline to the dealer is expected. But the war is for dealer business only, the public will not enjoy lower prices.

Independent concerns were up early today when the news leaked out, although they admitted that they would be able to survive, even though the war caused them heavy losses. The gasoline "bootleggers," they said, are the only concerns that may be put out of business if the jobbing price goes down.

Officials of the oil companies would have little to say. At the offices of the Standard Oil Company, it was admitted that "something was doing." At the Sinclair company, officials did not know anything about it. And the independents, officers were wary lest they be dragged into the price war too prominently, admitting they could not beat the big fellows at their game.

Boy Scooped Up in Steam Shovel Is Fatally Hurt

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, March 6.—Silva Chioppo, 6 years of age, of 148 Drake street, playing in a lot at Masonic avenue and Geary street, where excavation work was being carried on today, was picked up in a big steam shovel with a load of earth and rock and dumped into a wagon. He suffered a fracture of the skull and internal injuries from which he is dying at the Park Emergency Hospital. The Richmond police are investigating.

INDICTMENTS FOUND IN BUCKET SHOP WAR

CLOSING OF CHICAGO FIRM DISCLOSES HUGE LIABILITIES

(EXCLUSIVE DISPATCH)

CHICAGO, March 6.—Three men were reported indicted, twenty places were charged with being bucket shop and liabilities of the local offices of G. F. Redmond & Co. were placed at between \$1,500,000 and \$1,600,000 today.

These were the chief developments in the fast-moving train of events caused by Federal Judge Morton of Boston, granting a petition for injunction against the firm and closing its fifteen offices scattered throughout the country. Headquarters of the company are in Boston.

Redmond, proprietor of the shop, had a meteoric rise. Five years ago he was a croupier in a Boston bawdry and lost his start in a high-stakes game. He arches broke down and while convalescing in a hospital he evolved the stock-selling scheme which has grown to great proportions. His shoe-store rapidly grew into a million and within a year his firm was employing 1000 clerks and salesmen.

It is expected to have the Western Pacific in such condition by August 1, when the new track arrangement will become effective. This gives the Southern Pacific between San Francisco and Ogden with the other lines and now has under construction a double track for a total of 550 miles.

The Western Pacific's net earnings on the other hand will be very considerably increased by the arrangement, and the apportionment of rentals between the parties for the use of one of the tracks of the other. The physical condition of its lines is such that traffic moving over it will be brought to a much higher standard. The arrangement will add materially to the efficiency of the Western Pacific in the handling of its traffic.

FRUIT PLATES EXPEDITED

"The bridge arrangement over the Sacramento and Montezuma gives the Southern Pacific an alternate route between Chico and Weso at times when it needs to expedite its perishable freight movement over its tracks through Trans. The last part of the Southern Pacific eastbound traffic that will be bridged over the Western Pacific will consist of lumber. The Western Pacific, on the other hand, will have this contract, which provides for plates on the basis of each loaded freight car moved, will have its freight revenue very materially increased.

The Suisun branch of the Sacramento-Northern will be linked to the Sacramento-Northern and Western Pacific at Sacramento through the use of the Southern Pacific's tracks.

The contract between the Pacific Fruit Express and the Western Pacific is merely establishing the bridge arrangement in a definite way as a contract, the Pacific Fruit Express during the past season has been handling Western Pacific refrigerator cars. All the cars serving the perishable traffic of the Santa Fe jurisdiction will thus be under this one organization, making it easier to handle the problem of equitable distribution, particularly during the fall when grapes are moving."

Fullerton Maids Keep Score on Leap-Year Board

Three Ensnared by Bait of Fisherman Cupid

Real Contest Anticipated as Roll Increases

EXCLUSIVE DISPATCH
FULLERTON, March 6.—Marriage assignments among the faculty of the Fullerton public schools have become as numerous since the beginning of Leap Year that one of the teachers conceived the idea of posting a cupid's score board in the lobby of one of the buildings. The board now shows that the pedagogues promised to plight their troth at Hymen's altar. Two of these are now instructors in the hCapman avenue school, another is a teacher in the high school.

The board made its appearance this morning following a party last evening at which the management of the Fullerton High School, the Bells of Santa Monica was announced. She is the second member of the faculty of the Chapman building to announce her engagement. The third, Mrs. LaVenia Premo, whose betrothal was announced soon after the first of the year.

The board is artistically decorated at the top in a small cupidfisher with a large heart and lining at the end of his line for bait. Struggling to reach the prize are numerous maidens, each bearing the name of one of the local public school buildings. Underneath is the caption: "Who's Next?"

The third name appearing on the board is that of Miss William Jones, of the high school faculty.

But it is a real contest and it seems that the teachers are even more up to the amusement of the amusement. Miss Harrison's appreciation of her bringing the Chapman school to the fore again, a new poster appeared on the board, with the name of Miss Harrison's name. It reads:

"After every party
We're minus one more miss.
We ought to all be married,
If it keeps on like this."

Leonard G. Sanders in Pasadena Jail Admits He Drove Car That Killed Two Women

By a "Times" Staff Correspondent
PASADENA, March 6.—Leonard G. Sanders, former proprietor of a Monrovia cafe and wanted in Pasadena for the asserted killing of two Pasadena women three months ago, was arrested recently in St. Louis and was returned to this city by a Pasadena officer.

Soon after his arrival at the local jail, Sanders signed a written confession admitting that he was the driver of the car that ran down Mrs. Mary Wiley, 72 years of age, and her daughter, Jessica Wiley, 43 years of age, and left them in the care of Accosta and Chief Kelley, who took the man's statement. Sanders became panic-stricken soon after he hit the women and thought only of getting far away from the scene as possible.

The following day, the confession stated, he and his wife, who was in the car at the time and also is charged with manslaughter, read the papers and learned what had happened. They immedi-

WATER SUPPLY FEARS ALLAYED

Official Tells Plans Made for Summer Peak

Palisades Are Cared for by Proposed Tank

By a "Times" Staff Correspondent
SANTA MONICA, March 6.—Fear of a water famine in the city this summer was abandoned this morning when Commissioner Morton issued a statement answering all questions propounded by directors of the Chamber of Commerce and other civic organizations. This statement showed that such a shortage is highly improbable even though the distributing system being planned, is not completed in time for service at the peak period in July and August.

The fact that the city is favorably situated as regards underground sources of water supply should result in passing through the summer without serious difficulties provided proper co-operation can be secured from consumers.

The trouble of the local water department have been due to the lack of adequate mains, rather than to a shortage of actual water. The department is making every effort to be prepared for the peak load. Pumping has been increased and revised. Operating forces are being organized to care for leaks and conserve water at every point and preparations are being made to answer and adjust all complaints as rapidly as possible.

"The troubles experienced in Brentwood and Intermediate Palisades sections have already been cared for, by the proposed erection of an elevated tank on Olive Hill.

"There is no cause for alarm. Co-operation and reasonable conservation should enable the water situation to pass through the summer with comparatively few troubles," the commissioner explained.

VOTE FOR ANNEXATION TO HUNTINGTON PARK

LOCAL CORRESPONDENCE
HUNTINGTON PARK, March 6.—Huntington Park's population will have a sudden increase of at least 300, within the next few days, as that section southwest of this city known as Miramonte District No. 1, has voted for annexation to this city by a vote of 49 to 27. When the city Board of Education was told that any such election should be held after the date of the general election April 14.

It was pointed out that the

newer project is held up pending

the outcome of the strained ar-

rangements that are in process of

negotiation to connect a Venice

line to the Los Angeles main out-

fall.

The figures for fire protection, water and for the proposed into a local issue for providing a better solution for fire chief must first confer with the State Fire Marshal who has not yet reached the ranch where Horn had left his yeast fortune and taken it across the international border.

Insufficient time remains before the general election for the presentation of a petition requiring funds for the removal and expansion of the yeast plant.

The matter of funds for a municipal auditorium waits the clearing of the title to the site and an ab-

stract is being prepared on this matter by a title guarantee corpora-

tion.

DATE SET FOR BELL SCHOOL BOND VOTE

LOCAL CORRESPONDENCE

BELL, March 6.—Bonds for school purposes amounting to \$44,000 will be voted on the 28th inst., at a special election to be held in the Bell Grammar School district. Some time ago the election was held for a \$72,000 bond issue and was defeated by two votes. Since that election a part of the school district has been taken into the Maywood district, which has the bond issue in its capacity of the Bell district. At this election a new school trustee will also be selected by the voters, as the term of Fred Kirkwood expires and he will not again be a candidate, having served in this capacity for a number of years.

RECOMMEND ERECTION OF NEW COURTHOUSE

LOCAL CORRESPONDENCE

SAN BERNARDINO, March 6.—Election of a new Courthouse was recommended by the San Bernardino county grand jury in a partial report returned today before Superior Judge Warner. Urging that the county look into the future and erect "such court buildings as will economically and conveniently accommodate all requirements of the increase in county business that is sure to come," the grand jury recommended the purchase of a site and construction of the Courthouse by bond issue.

Sanders informed police today that he would waive his preliminary hearing and desired to be sent directly to the Superior Court in Los Angeles.

In his cell in the Pasadena City Jail Sanders showed every evidence of having been under a severe nervous strain. The first word Sanders is reported to have said on entering the local station was: "It's hell to be hunted."

BOYS AND GIRL ARRESTED

SANTA MONICA, March 6.—Police Captain Webb received word this morning that two boys and a girl have been arrested in San Fernando, Cal., in connection with an automobile owned by Philip Easterley, 224 Harrison street, Venice. When arrested the two boys are said to have confessed entering and robbing the store of J. L. Sullivan, 728 Raymond avenue, Santa Monica.

YOUNG BOY ARRESTED

SANTA MONICA, March 6.—Burglars who opened the safe in the A. J. Meyers plumbing shop, 323 East Fourth street, some time last night, got away with checks for \$1,000 and \$1,500. According to the police, the safe was held open by a key, and when the burglar was asked for the key, he replied, "I don't have it." The safe was forced open by the use of tools. Entrance was gained by prying open the door in the rear of the establishment.

Working Housekeeper Says Love Still Strong

EXCLUSIVE DISPATCH

BOSTON, March 6.—The sudden departure of George C. Davis, 38 years of age, from his family's home in Boston two weeks after his marriage to a divorcee whose City Hall cost \$5, but whose son says she is 70, has given rise to unpleasant stories.

Guy Miller, 41, of Roxbury, the new stepson of a man five years his junior, says Davis went away because he was bored.

"It was ridiculous," Miller says, "for either of them to think they could find happiness in marriage."

"I would think that Mr. Davis married his mother for her money, because her savings amounted to but a few hundred dollars, and the last of this was gone when Davis left. He hadn't worked from the day of the wedding."

GRANDMA OF NINE

The couple, Mrs. Lois Miller and George Davis, had been at a Harrison, avenuerental, for a week. They sang the same hymns, enjoyed the same appeal to come forward and testify.

"Land sakes!" her son says, "she is the grandmother of nine children."

According to the records of the marriage bureau in the City Hall Annex, intentions of marriage were filed on February 2 and the license was issued on February 8. On the following day Saturday, February 9, Justice of the peace in Roxbury told them they were married.

They lived together two weeks and one day. On Monday of this week Mr. Davis left his wife.

"I'm going up to New Hampshire and get a job," George told his friends.

Mrs. Davis did not see him off. "I'm a working housekeeper," she says, "and I have to go around forever to railroad stations. But don't you worry, our love is just as strong as ever it was. I know where my husband is, but I am not telling. For goodness sake, when I see him again."

Guy Miller, not the least bit unhappy because his stepfather has gone away, says his mother talks this way to keep up her courage.

Staller: Oh, are you? That's too bad! I wanted to touch you for \$5 more.—[Boston Globe.]

Value of Franc Slumps to New Low on Market

BY A. P. NIGHTWIRE

NEW YORK, March 6.—The French franc today plunged to a new record low level at 3.85 cents.

At the same time the discount on French futures was increased to 10 points a month below the spot price for the month of March.

The unprecedented increase of almost a billion francs in French note circulation to a new high total of 46,265,900,000 francs brought a flood of selling orders from foreign capitals, which precipitated the decline.

Added to the uneasiness over the country's problem of balancing its budget and handling its floating debt was the disclosure in the Bank of France statement, which showed no increase in advances, was held responsible for most of the speculative selling from Paris.

GROCER IS VICTIM OF SECOND HOLD-UP

LOCAL CORRESPONDENCE

HUNTINGTON PARK, March 6.—For the second time within six weeks, the grocery store of Morris Agius, Santa Fe avenue, was held up and the proprietor was relieved of about \$25 in the money box.

It is the second hold-up in a couple of days. The other came on Saturday.

Both hold-ups were committed by the same man, who is described as being a man of about 50 years of age, wearing a dark suit, a white shirt and a dark tie.

but I believe that there are others that belong there with them."

INFORMER TO TESTIFY

The search for the true facts surrounding the bank robbery also disclosed that an informant had advised the Sheriff's office of the whereabouts of some men now suspected of being the actual bandits. Reports on file in the office show that some of these men were later taken into custody by Deputy Sheriff Hansen, a member of the narcotic squad, and members of the police department. These men were later released upon orders to the narcotic-squad, Bell declares. It is expected that he will be one of the most prominent witnesses to appear before the grand jury when the hearing is resumed.

Another witness yesterday that shone light upon the ramifications of the bank robbery was the man in which they worked with officials was H. Brownlee. He was brought here from San Quentin where he is serving a sentence for robbery. In a detailed statement to the investigating officers he directly charged one former deputy sheriff with accepting money to fix cases, and another deputy with knowing that the Mexicans did not commit the bank robbery. He told of how he had informed a man in the Sheriff's office of who actually did rob the Arcadia bank, and was told to "keep quiet."

RANKER TESTIFIES

The first witness today was C. L. Dunham, president of the First National Bank of Arcadia, who presumably told the details of the robbery. Other witnesses were heard by the grand jury were Wright and Manning. Witnesses who have been called to testify yesterday are Tom O'Connor of San Diego, County Sheriff; Ralph C. A. Townsend, general agent of the American Railway Express Company at San Diego. O'Connor is expected to identify one of the Mexicans who was carrying a stolen traveler check in payment for repairing an automobile.

None of the officers who conducted the investigation would predict yesterday that the facts resulting of their work will carry. That there will probably be more arrests before the hearing is concluded, and that some of these will be peace officers, was freely predicted.

Deputy Sheriff Fox, one of the deputies on the original investigation of the robbery yesterday said: "I have appeared before the grand jury and can't say anything regarding the case because I have been sworn to secrecy."

Deputy Sheriff Bright, one of the deputies who arrested the three Mexicans and serving sentences at San Quentin for the robbery, said:

"I was on the case when Guido Spina, known as the 'Mouse' was arrested at Arcadia and was sent to bring him back here. While I was away some of the American Express money orders stolen from the bank were recovered at Tijuana and San Diego. I made a report telling everything I knew of the case at that time to Chief Criminal Deputy Wright. From the evidence brought forward and from my own knowledge of the case I am convinced that the three Mexicans are guilty of the robbery."

An interesting sidelight on the grand jury hearing occurred yesterday when it was discovered that Mrs. W. R. Tunison, a member of the inquisitorial body, was a member of the trial jury that convicted the four Mexicans of the bank robbery.

GIRL AFTER LONG HIKE ARRIVES HERE

Edith Kehler, 19-year-old Cleveland girl, yesterday completed a 500-mile hike from her home to Miami, Fla., and then to this city. She left with \$5 and got here with \$2 but then, she said, travel is expensive. She made her way selling magazines. Like most of the others, the most of her walking was done in climbing aboard automobiles, she said.

Serve Him

If a man wants a fish hook or \$50 worth of tools—serve him.

A tourist came to play and fish. Discourteous fishing tackle salesmen made him ponder.

He was a hardwareman. He concluded that Los Angeles needed a store interested in its customers.

He established the New York Hardware Trading Company. A real fisherman sells you tackle—a real tool man sells you tools—intelligent service—big business—two stores.

They have complete National Cash Register equipment—and give the customer good, quick service.

STOCK DEAL SUSPECT IS IN CUSTODY

Local Broker Accused of Swindle in Cattle Company Operation

W. B. Lawrence, stock broker with offices in the Merchants' National Bank Building, was arrested at his home, 330 South Berendo street, by Deputy Sheriffs Collins and Blasdel and Deputy Sheriff Buck of San Diego for the authorities at San Diego on a charge of obtaining money under false pretenses. It is charged that Lawrence, Charles Carrere and a third person whose name is not known, obtained \$25,000 from J. A. Warren, wealthy stockman of San Diego, in a cattle company operation.

Lawrence had previously been arrested and is out on \$20,000 bail. He is said to be staying at a local hotel.

The officers declared they have been hunting Lawrence for several days. They declared that when they went to his apartment night before, some told them his father was not at home but they entered on the warrant they had obtained and placed the broker under arrest.

Lawrence is accused to have been used by Lawrence and the others in the cattle company deal, the San Diego officer said, consisted in the organization of a company to obtain \$25,000, following which they are declared to have left that section.

LUNCHEON ON VOTING SET TODAY

Registration Main Topic of Speakers Scheduled to Make Addresses

The registration luncheon to take place at noon today at the Clark Hotel, will be attended by representatives of the leading political, educational, religious, fraternal and business organizations of Los Angeles.

President Boyle C. Workman of the City Council will welcome the guests, and will introduce the chairman, David B. Lyons, who registers more than one-third of the City Council.

Short talks telling of the need for a vigorous educational campaign for 100 per cent registration and voting will be made by John E. McElroy, president of the Democratic Central Committee; Ralph Arnold, chairman of the Republican County Central Committee; J. C. Bell, chairman of the Prohibition Party of Southern California, and Harry Stover, organizer of the Socialist Party.

Mr. Arthur Haineman, president of the League of Women Voters will tell why a united effort is needed.

There will also be an open discussion and questions answered concerning the work to be done. Speeches will be taken to form an organization to carry the work forward.

TURN DEFEAT INTO VICTORY

"Y" Girls Lose Dance, Sell Beverage

"Punch Day" at University
Elizabeth Kemp and Harry Kolton wish Marjorie Rice, the dispenser better luck next time.

REFUND TO ATTEND TAX REDUCTION

Recovery of 25 Per Cent to Follow if Law Passes, Blair Reports

THE recent rain may have been worth a dollar a drop to the farmers in Southern California, but to the T.W.C.A. girls at the University of Southern California it was a losing proposition, and here's how it happened.

The girls had made preparations for their annual dance which was to be given to raise funds for their work. The hall had been rented, the orchestra hired and the punch ordered, when the rain came along and spoiled the sale of tickets to the students.

As a result they found themselves with no dance and no revenue, and no punch on their hands.

For a while it looked as though the T.W.C.A. would face a severe loss of funds, but ingenious minds conceived the idea of selling the punch to the students at 5 cents a glass.

"We are only getting about a half cent a glass for each drop of punch," said Marjorie Rice, who was appointed the official vendor of the sparkling liquid, "but I am sure the rain was worth more to us than the dance or the punch."

It was official "punch day" at the university yesterday.

Drug Education Drive Ready to Start Shortly

Plans for the campaign to be launched the 16th inst. by the International Narcotic Education Association for memberships and support are maturing rapidly under direction of Capt. Richmond Pearson Hobson, president of the association.

Ingall W. Bull, chairman of the regional district, expects to complete his circuit of visits to the 100 cities Tuesday evening, when the district directors appointed for his division will meet at a conference-dinner at the Elks' Club. At this meeting each district director will receive his quota of cards and final instructions will be given on the details of the campaign.

The campaign, which will be conducted throughout the week, closing Saturday night, the 22nd inst., will seek to support the big program of educational work which the International Narcotic Education Association is carrying on against the dope evil.

Through the dissemination of facts and a knowledge of the insidious perils of narcotics, the association is seeking to combat the alarming spread of drug use among young people and adults.

QUARTET ARRAIGNED IN OFFICER KILLING

The four men accused of the murder of Patrolman Glenn E. Bond during the attempted robbery of the Merchants National Bank were arraigned yesterday before Judge Keetch of the Superior Court. They were held without bail until Monday and then were taken back to the County Jail. The men are Lewis and Oscar Perry, brothers; Ed Montijo and Tom Bailey.

Chief Trial Deputy Pitts and Dist. Atty. H. E. Denney, argued during the arraignment that Dist. Atty. Keyes would prosecute the case against the four men in person.

DEATH CAUSE TRACED

Autopsy Proves Fatality Due to Heart Disease, Not Auto

Mrs. Elizabeth Burrell died of heart disease and not because of being struck by an automobile, County Autopsy Surgeon Webb announced yesterday after an examination of the body at Edwards Brothers undertakers' room. Mrs. Burrell, who was 42 years of age, died at 845 West Fifty-third street, was found dead yesterday at Fifteenth street and Vermont avenue.

Though there were no marks on her body the police first believed she had been killed by an automobile.

BENEFIT CONCERT SUNDAY

John Ardison, dramatic baritone, will present a concert for the benefit of the Disabled Veterans of the World War, Post No. 1, Sunday afternoon at Philharmonic Auditorium. Proceeds from the concert will go toward the relief work of the organization, according to an announcement by Maj. John A. J. Darrah, relief and contact officer.

ROBBED BY ARMED MEN

Two armed men robbed John Bradbury, 414 North Compton avenue, Watts, of \$40 last night, according to reports to Deputy Sheriff Harrod and Page.

PRIZE ART ON DISPLAY IN MUSEUM

Print Makers' Exhibition Winners Awarded Medals and Sums

Prize winners at the International Print Makers' Exhibition have been selected and are on display at the Los Angeles Museum at Exposition Park.

The Los Angeles Gold Medal of California gold, offered by the Los Angeles Chamber of Commerce for the best group of three prints in the exhibit, was awarded to a French artist, Adolphe Beaujart.

The Mrs. Henry E. Huntington Purchase Prize of \$100 for the best print, was awarded to John Hansen, a San Francisco painter, but has only been etching the last few years.

The Silver Prize, offered for the best print, was awarded to Bonnard Bay.

The silver and bronze medals offered by the Print Makers' Society of California were awarded to Louis Rosenberg for "Collalens, Rome," the bronze medal to a group of two prints by Fred Monhoff.

The Mr. and Mrs. William Alan Brown Prize for the best American print was awarded to Robert M. Whitmore for "Norman Bay."

The Jury of Awards was composed of F. Mosley Fletcher, Lee Randolph, Benjamin C. Brown, John C. Stick and Ford Carpenter.

The exhibition lasts through the month of March.

MILLION-DOLLAR Deal Reported in Apartments

One of the largest apartment-house sales in recent months is the sale of the Engstrom Apartments at 825 West Fifth street to Charles H. Low and Grace E. Low for a reported consideration of \$1,000,000.

The property, which was formerly owned by the Morton Investment Company, was exchanged in part for four apartment-houses including the Jarrel Apartments, 1316 South Los Angeles street, Adelbert Apartments, 1627 Ingalls street, Longfellow Apartments, Venice, and the Golden Spear Apartments, Long Beach. Roy B. King, real estate and investment broker, handled the deal.

After Councilman Criswell had concluded his speech, Councilman Musket arose, and announced on a matter of personal privilege.

"I am often attacked, even editorially, in some newspapers. But I have never given up the Councilman's right to reply to these attacks, for I do not believe that I needed an alibi."

"Let's go," said Councilman Alman, and the Council resumed its routine business.

SUIT DEMANDS Return of Sun Used for Park

John A. Rodgers, one of the leading figures in the litigation surrounding Long Beach's proposed municipal gas plant, yesterday brought suit in the Superior Court against City Manager Windham, members of the City Council, former City Manager Charles E. Hewett, City Treasurer H. C. Morris and others to compel them to pay back into the city treasury \$47,525 he declared was spent contrary to provisions of the Long Beach city charter.

The complaint sets forth that the sum was spent for the construction of the Golden Avenue and Santa Cruz street park. Rodgers asserted the expenditures comprising the sum mentioned were sanctioned by Hewett during his term of office and later by Windham.

Rodgers also alleged that the money was spent illegally was based on Rodgers' assertion that the amount spent was not provided for in the city's budget for the calendar year of 1921-1922, during which the transaction was said to have taken place.

Two witnesses, Police Officer

Jack Stelezeide and Harry Smith, were called yesterday. Smith was one of the principal witnesses against the city, and it is his trial having been an eyewitness of the killing. The case will be re-summed this morning.

TIMELESS
It was clever of Mary Garden to come along at just the moment when everyone was feeling the spring urge toward gardens generally.

THEY WILL PLUTTER
Down in Georgia they might at least revise an ancient adage and speak of an irresistible attraction as like that of a Cinderella.

MENTAL CRUELTY
Divorces are on the increase in Germany. It probably is ample ground for divorce there now if a husband tells his wife that she is worth her weight in marks.

ROCK-A-BY BABY
When the Senators get to writing poetry at one another it is time to pull a veil over the national capital. The quality of the output would indicate that the infant class had broken into the halls of legislation.

THE SWEETEST MUSIC
The lone wolf is enamored with the splendor of his own howl. The screaming owl is vastly impressed with the heaving harmonies of his own hoot. Even the melancholy minister who moans through the saxophone becomes enshamed in the tender tentacles of self-esteem.

PINNING 'EM DOWN
Manager McGraw of the Giants will not permit his performers to train on golf. They must keep their eyes on the ball—but it is the baseball. After sundown they may indulge mildly in pinocchio or dominoes, but during regular hours the national game is the only one recognized.

PUTS AWAY THE CROWN
Joseph Daniels will not consent to have his name placed on the Democratic Presidential ballot in the Georgia primaries. If Josephs had not taken the pains to protest some of us would never have known that there was clamor for the use of his name. This putting away the crown should be a simple and painless task for a lot of more or less seasoned Democrats this year.

THE PEARL OYSTER
A lady guest at the Biltmore is said to have found a \$1000 pearl in a plate of oysters served at a recent dinner. But the management does not guarantee pearls of \$1000. Guests will have to take their chances. Some of them may get pearls, not as a regular diet. Also folks eating ham and eggs cannot expect any dividend in this line. There is a proverb which goes.

AT THE BRIDGE
Speaking of the auction lure with the ladies, we are informed that 3200 women were playing bridge at one time and in one hall in Cleveland the other afternoon. With more than 500 packs of cards working at one time there wasn't even much chance for gossip. If that many men had been assembled to play poker there would have been a hurrup call for the United States Army.

GARDEN REFLECTIONS
Now that there are no longer any free government garden seeds, it appears to the amateur gardener that there are only about half as many seeds in the 10-cent package he buys as there were formerly.

It used to be that when one slit the end of his packet he had to hold it carefully or some of the seeds would spill out the top. But now one can slit it, press it wide open and, in some cases, actually see the bottom of the envelope through the thin layer of seeds. A dime's worth of sweet pea seed can thus be counted without removing them from the envelope.

Is this due, one wonders, to the higher wages now paid pea vines or entirely to vastly increased overhead?

YEARS AND HONOR
The Harvard crimson will be flying on the last days of the month. The 30th is the ninetieth birthday of Dr. Charles W. Eliot, who was for more than forty years the president of the ancient university at Cambridge. Dr. Eliot was born in Boston and is one of the best-beloved sons of the Bay State. Until the coming of Dr. Eliot the university had been almost uninterested in charge of some chairman, but Prof. Eliot was a layman and a scientist. He was also 35 years old at the time—this was in 1869—and he was considered the youngest college executive in the country. During his administration the university and its endowment grew mightily. The medical and law schools have been brought to their present standing and magnificence and a great undergraduate system has been developed. When he retired as active head of the university—in 1890—Dr. Eliot was established as president emeritus and was honored by many foreign governments and important scientific bodies as well as other colleges. He is still considered one of the finest minds in America and thousands of Harvard students will gather on March 30 to further honor one of the republic's foremost citizens.

COOLIDGE FIRST—NO SECOND
Coolidge victories in Iowa and Minnesota—in the heart of the territory where the farmers have been represented as hostile to the administration—mark the beginning of what is destined to develop later into a stampede for the Coolidge band wagon. In each State Coolidge was first, and there was no second.

Coolidge is as much a favorite with the Republicans as was Roosevelt in 1904 and Wilson with the Democrats in 1916. La Follette, it is interesting to recall, entered the list against Roosevelt. He has learned by experience and, although not supporting the administration, he has refused to enter the race against Coolidge.

Some men acquire wisdom through their mistakes, others are so blinded by ambition and envy that they repeat the same blunder over and over again.

The source of President Coolidge's strength is not difficult to discover. The Republicans of all sections of the country have faith in his sincerity, in his high character and his sterling honesty. He is not one who promises the moon, along with the planets Venus and Mars. He leaves the making of extravagant promises to others and is content to be judged on his performance.

The President has not promised the farmers \$2 wheat and the city dweller a 3-cent loaf of bread. He has not promised the taxpayers a reduction in rates and the disabled war veterans a bonus. He has not left the business of the government to shift for itself while he toured the country making campaign speeches. He is not the type of public official who is always on the job, who pays as much attention to public affairs as though they were his own private business.

Coolidge believes that he was elected to public office to perform a public service; and he holds that the place of a public official is at his desk, not chasing about the country crying his personal woes.

And it is an evidence of substantial civic progress that the people of the country as a whole are able to value the President at his true worth, that they have learned to distinguish between statesmen and demagogues. Only stupid and uneducated people are the victims of personal propaganda. As education along moral, intellectual and patriotic lines progresses people learn to discriminate between promise and performance. They learn that those who promise the most invariably deliver the least.

The campaign is young yet. Only a few delegates to the national conventions have been named. But those familiar with the game regard the race as already won; and they are backing their opinion by offering odds that Coolidge will be both nominated and elected. For this there is a reason. Delegates to the national conventions, when honestly chosen, reflect the will of the communities that they represent. And it is the plain will of the great majority of the Republicans of the nation that the President shall succeed himself. Public sentiment is the cause, the convention is only the effect; and effects follow causes as surely as shadows follow the sun.

MODERN CAMP FOLLOWER
Naturally the roadside auto camp has become a necessity—especially to a hustling community like Los Angeles and her suburbs. But more regulation of these camps is also a necessity and they should never be suffered to run without certain restrictions that are essential to sanitation and clean living.

There are a lot of folks in the world who appear to be fixed in the camp habit. They can no longer get away from it. They have sold off everything but the ancient road scow and now they spend most of their time in that. The other day a family was found that had already lived in auto camps for more than three years—which is about the life of this gregarious institution. There are families who have lived in the tents or crude cabins that furnish the home atmosphere in local camps for more than a year. They show no intention of breaking away from this environment. They have grown careless and shiftless. The head of the family may work at times, but he sticks to no job and he saves no money.

Some of the thieving and banditry that disturb the peace and safety of the community can be traced to these motor camps. It looks like a little easy money and the silver furnishes the means for getting away. It is a careless, reckless and irresponsible life, but it has its appeal. With a buzz wagon, a gallon of gasoline and a can-opener the modern wanderer is ready to sally forth on life's adventure. He finds his companionship in the auto camp and there he may terminate his days.

A little rigid inspection and supervision would be helpful.

RELIEF BOMBSHILL
A in sponsoring a bill for the abolition of the Caliphate the Turkish government has delighted ancient fires of religious conflict of far greater world portent than the fate of Turkey itself. To depose a Sultan was a minor operation compared with cutting off the head of the Mohammedans.

Since the year 1517 the Caliphate has been identified with the government at Constantinople, when the Turkish Sultans assumed the title and with it the spiritual supremacy over all Moslems. The office came down directly from Mahomet, thus dating back to the sixth century. Today the Caliphate represents the head of 175,000,000 followers—mostly fanatics. The large majority of them, moreover, owe no allegiance to Turkey.

We can get a faint idea of what this action may lead to by imagining what would be the result in Catholic circles if the Italian government were to abolish the Vatican and send the present Pope into exile. Italy could not confine the effect of such action to its own nationals.

Add to this the fact that the Mohammedan population is composed, for the most part, of wild and uncontrollable tribesmen and Ishmaelites—fighters and fugitives since the days of Abraham—that until the Caliphate was lodged in the Sultanate, that office was a ceaseless center of furious and bloody strife—and the possible significance of this last move by the Angora government may be brought home to western minds.

SAFETY FIRST
The former chef of the Russian Czar is now running a little pastry shop in Paris. He may not have as much fame and fortune as in other days, but he has the best of most of his fellows. He is at least safe.

PRINGS

HAILEY, Ph.D.,
California
porarily, by earthquakes, and
they are radioactive.
The hot springs in the "Triangle" are the best known and most visited.
The group of hot springs known as the famous Arrowhead are now being used by Uncle Sam for the benefit of our boys in Kitchener. These hot medicinal springs cover 9 feet above the level and have temperatures as high as 102 degrees. They are distributed along the "Triangle" over 500 feet wide, and one-quarter of a mile in length, extending from the Palm Springs to the east to the Bear Canyon, a belt that is nearly twice as long as the famous "strip" of Arkansas hot springs.

THE FORMATION

The formation of the belt of modiorite and gneissoid rocks with some dolomite porphyry. On the ridges the terrains of late Tertiary formations cover the ancient rocks of the belt; but its position is clearly defined by the patches of brush of bushy slopes of the Tertiary—locally known as "tuff" and by various forms of plants and flowers that have been stimulated to luxuriant growth by the warm waters. Wherever ravines cross the belt hot waters and steam are found, and these are at all elevations from the bottom of the ravines.

We know the amount and variations of the rainfall of the region, for the records extend back for many years; and we know the composition of the waters, for they have been analyzed by many since Lieut. Wheeler's report.

A summary of the facts shows that the flow has been constant, while the rainfall has been variable; and there is no apparent connection between the two. It is known that these springs are composed of carbonates and carbonatites. These waters contain some bicarbonate and just enough dissolved carbon dioxide to make them of special value: iron, potassium, calcium, traces of lithium and sodium, and hydrogen, and they are radioactive. They do not contain any acidic acid gas, nitrates and sulfates, therefore, classified as the waters of "rock salt." The igneous rocks and lavas lie below the surface.

LEADING JUVENILES
Going down into San Bernardino Valley one finds some of the evidences of juvenile waters; but most of the springs are a mass of both juvenile and vadose waters. This is natural, for in the mountains they are overlain by a mass of sand, clay and gravel, which become mixed with the relatively soft waters, as well as having their temperature lowered by their passage through this covering.

The springs on the San Jacinto plateau are more evidently juvenile.

How old are they? Geologic time cannot be estimated in terms of years. They date back to the time when the great Cenozoic was formed, to the time when the mountains were brought forth back to the time when the mountains commenced to gather the forces of tribe after tribe of primitive savages and race after race of primitive men, to centuries too remote to be fully comprehended by the human mind.

Hot springs are long-lived. The Greek became famous when it was defended it in 480 B.C. against Xerxes, and again in 1912 B.C. when the pass was defended against the Gauls. Today the most hot springs are visited by amateur globe-trotters.

The hot springs of California are a permanent asset, for they are probably now when the ruins of the ancient city of Los Angeles will be objects of interest to search and wonder on the part of antiquarians of ages to come. In the dim and far distant future.

What is the big celebration? "I'm willing to apologize for it, I do not care to die to be talked about."

"And after that he said nothing."

Mourned by shrieking gales
Wailing shapes embalmed
Spices o'er the bier
Springtime from dead
For the dying year.

size and last night was no exception. Through the medium of radio, band concerts will not be limited to park concerts and beach programs in the summer, but will extend through the winter months and to the remotest corner of the continent.

PRESENT CONTRASTS
As the radio reaches people of vastly varied tastes it is always the purpose of the studio to present a program that will be suitable to all to reach as many as possible. The effort, however, last night amounted to contrast. From the blare and crash of a brass band the listener was whisked to the delicate tinkles and strains of the stringed instruments in the hands of Vahdah, Olcott, Bickford and Zarch Myron Bickford. These artists, recently from New York, are a distinguished addition to the music colony of the globe-trotters.

The high class of art displayed by them last night will not long be unrecognized on the Pacific Coast. The program of the mandolin, guitar and mandolin interpretations of the old masters that pleased the fancy of the most sensitive.

Mr. Bickford played a selection from the "Concerto Romantico," his own composition, to the delight of every listener, also "Caprice" and a lighter number, "California."

Vahdah, Olcott Bickford introduced Radinland to a new instrument called the Terz guitar. This instrument was invented by a European named Giuliani, a contemporary and close friend of Ludwig van Beethoven.

It is a plectrum guitar, tuned third higher than the ordinary guitar. On this instrument she introduced "Mowhawk," Spanish Dance, "Tango," and a number of pieces arranged by W. N. Devereux.

Through the courtesy of the Southern California Music Company, presenting Earl Meeker, baritone; Mrs. Isidore Zenteno, soprano; and Salvatore Tomaso, mandolin, and Carl Buratti, cornet.

SUGGESTIONS

Egg Stains

Soak egg-stained linens in cold

Heavy Stitching

If hesitating about stitching ma-

A 10-Cent Investment

Where the children are study-

It can be placed under the pedals

of the piano and save wear on

Home Dentistry

Should you be unfortunate and

lose a filling from your tooth, causing

great pain, saturate a bit of

artichoke in six slices lengthwise and

cover with cold water to which

has been added two tablespoons of

lemon juice. In the morning, at

least three hours before the arti-

chokes are to be cooked, make a

egg white by mixing the yolk of one

egg with an tablespoon of cold

milk. Take two tablespoons of

artichokes, place them in a

small dish, add a few drops of

lemon juice and a few drops of

egg white and cover with a

Worth Knowing

Equal parts of lime water and

flax seed oil will take the fire out

of a house plant. Apply at the

root of the plant.

A handful of salt in the last rins-

Stop Its Course

If you discover a small hole or

have on and have no time to

change them, rub a dampened cake

of soap around the hole to block

the likelihood of its making a long

run and ruining the stockings.

Household Interests

Seven Members Present; All Express Approval

Chief of Police Vollmer yesterday afternoon personally called before the City Council his plan for reorganization of the department into eleven divisions or bureaus so as to increase the efficiency of the organization. The purpose of the meeting was to secure the views of the Councilmen as changes in the existing ordinances will be required to carry the plan completely into effect.

Seven Councilmen were present at the meeting with Chief Vollmer and all of them expressed their general approval of the Chief's plan. The present were Police Commissioner Montgomery, Civil Service Commissioner Schreider, and nineteen police captains and acting captains. Many of these officers, including Capt. R. Lee, had been present at the meeting. The conference at the Angelus Hotel was under direction of the executive committee of the Ninth District Coolidge Republican organization. Gen. H. H. Welch, chairman of this body, presided at the first of the three meetings in the interests of the President to be held by the residents of the district.

More than fifty persons attending the meeting heard speeches by William May Garland, Coolidge delegate and local realty man; W. E. Evans, Coolidge delegate of the Ninth District; Burdage, John, chairman of the body presiding at the first of the three meetings in the interests of the President to be held by the residents of the district.

According to the report of Assistant Captain Hock of the auto theft bureau, Baldridge and his partner, Detective Lieutenant Cline, learned that Beday and Nulton were to meet a third youth at Sixth and Alvarado street about 1 o'clock yesterday morning in a stolen car. They drove out to that corner and stopped.

A few minutes later the six-cylinder car with Beday and Nulton in the front seat swerved up to the curb and picked up the third member of the trio. Cline stopped the car and ordered the youths to stop. Instead of complying the driver of the car stepped on the gas. Cline made a running leap and found a hand hold on one of the top stays. But he was unable to hold on, falling and was consequently dragged for some distance before he was forced to let go of the car.

At Juvenile Hall the three suspects admitted, according to the police, arriving in Los Angeles to buy a car and stealing a car belonging to Clifford J. Ulmann of 622 South Berendo street and the car belonging to Mr. Runkin.

OFFERS PROMOTION

Chief Vollmer in describing his reorganization plan called attention to the fact that the various branches of departmental work each requires men of different kinds of training and ability. In general his plan is to have all men enter the department as first-class patrolmen, then after six months, they shall take an examination and if successful shall be promoted to third-class troopers. Then, after another six months, they shall raise the rating of the men each six months, under the examination plan until they reach the rank of first-class patrolmen. After this, the officers will be promoted to second-class patrolmen as soon as having been proved, the officers will be detailed and placed in the engineering, records, crime detection, traffic, transportation, and other divisions through which they will afterward advance by examinations until they command the divisions and will also be eligible for deputy chief and chief.

Civil Service Commissioner Schreider told the general Civil Service Commission approved of the plan and believed it to be splendid. Such differences of detail as existed between the commission and the Chief he indicated were easily adjusted. The value of the departmental merit rating to be given by the commission in its promotional examination of members of the department.

DIVISION HEADS SPEAK

As showing the effective workings of the new plan as put into effect to date, Capt. Heath told of the work of the records department and Lieut. Sweeney told of the responsibility of the transportation division in handling the 147 automobiles, 65 motorcycles and numerous delivery wagons and other mobile equipment.

The plan of Chief Vollmer, having in general the approval of a majority of the City Council as shown at yesterday's "get-together" meeting of the Councilmen at the City Hall, the Chief will now work out the details for necessary legislative changes with the Civil Service Commission and the City Attorney, and as far as possible to examine ordinances. New men will be given credit in their examinations for their efficiency in the department so that the police officer who works hard and efficiently will be promoted and will become an expert in his particular branch of police work.

Barnes wild west show comes to town.

The Al G. Barnes circus has provided for lovers of pageants this season the American feature, "Pocahontas at Queen Anne Court,"

which will be given credit in their examinations for their efficiency in the department so that the police officer who works hard and efficiently will be promoted and will become an expert in his particular branch of police work.

COOLIDGE WORKERS ARE BUSY

Ninth District Residents Plan Receptions in Cities; Hear Speeches

Receptions for delegates pledged to the support of Calvin Coolidge in the National Republican Convention will be held in Glendale, Pasadena, Monrovia, Alhambra, Pomona, Whittier, and Long Beach, according to tentative plans which were made at a meeting of prominent residents of the Ninth Congressional District.

The conference at the Angelus Hotel was under direction of the executive committee of the Ninth District Coolidge Republican organization. Gen. H. H. Welch, chairman of this body, presided at the first of the three meetings in the interests of the President to be held by the residents of the district.

A few minutes later the six-cylinder car with Beday and Nulton in the front seat swerved up to the curb and picked up the third member of the trio. POLICE CAR WINS RACE

Four-Mile Chase of High-Powered Auto Ends in Capture of Three Asserted Motor Thieves

Four-cylinder perseverance yesterday morning won out over six-cylinder speed, with a three-tier handicap. Detective Lieutenant Baldridge of the police auto theft bureau after a four-mile chase, up street and down street, through alleys, and across vacant lots, captured three youths who, he said, admitted stealing eight automobiles.

Detective Baldridge was in a go with the car making, he said, about thirty miles an hour. When he dropped from the speeding car he was hurled nearly twenty feet, but was unharmed.

Detective Baldridge immediately started in pursuit. The chase continued for about four miles through the Hollywood and Wilshire districts. Finally the youths, apparently in a blind street, turned their car into Westmoreland avenue, a blind street.

Baldridge followed, traveling about forty-five miles an hour. As he hit the turn the left rear tire of the police car broke, and the two men blacks and the street ended in a fence, a row of trees, and on the other side a deep gully. Just before they reached the end the asserted auto thieves saw the danger and jumped out and ran down the gully.

A few seconds later, Baldridge jumped out and ran down the gully.

Baldridge stopped the other two under arrest. Later in the morning the third member of the trio was arrested.

At Juvenile Hall the three suspects admitted, according to the police, arriving in Los Angeles to buy a car and stealing a car belonging to Clifford J. Ulmann of 622 South Berendo street and the car belonging to Mr. Runkin.

STATE NABS THREE FILM SCHOOL MEN

Defendants Charged With Violation of Employment Agency Law

Motion-picture schools received another set-back yesterday when Otto Pollo, Ben Goldstein and Joe Goldstein were placed under arrest following an investigation by Commissioner Louis Bloch of the State Department of Labor. The charge is violation of the State employment agency law, which prohibits acceptance of registration fees in advance of having available employment to offer.

In this instance the defendants were said to be in collusion with Mrs. Otto Pollo, who operates a make-up school at 127 South Broadway, across the street from the employment agency. Upon investigation, police found out of 1,000 students registered with the employment agency, 100 were sent to the agency to be registered, after which, it was testified, little attention was paid to them beyond perfunctory instruction in the use of grease paint and makeup.

The arrests were made by Leroy E. Richards and Luke M. Lane, who are co-operating with Mr. Bloch under orders from Capt. George McLean.

Commissioner Bloch and Steinbeck yesterday conducted a hearing of similar charges against the Hollywood Photographic Exchange Agency, 643 South Broadway, operated by R. B. Oliver. The defendants had upon the contention that fees were accepted for instruction only. It appeared from the testimony of witnesses, however, that their chief anxiety was to secure employment and kindred work, and that the fees were paid with the understanding that such payment would aid them toward that end.

The hearing was continued until 2 o'clock Monday.

WIDOW LOSES SUIT

Husband was Killed at Crossing of Electric Line

Pearl Pullman, widow of Jacob Pullman of Long Beach, her four daughters and three sons failed to return to the screen and to use the name of Mrs. William S. Hart, a professional player. At present she is separated from her husband upon the contention that fees were accepted for instruction only. The hearing was continued yesterday in Judge Hewitt's court.

The plaintiff had sued for \$50,000, declaring that Pullman had suffered injuries he received when an automobile in which he was riding was struck by a car belonging to his husband.

Hart entered a demur to the suit on the ground that it was ambiguous and did not contain sufficient facts to constitute an action for action. He also filed a notice of motion to strike the complaint several chapters referring to his marital conduct toward Mrs. Hart. The widow will file a demur to the suit on the ground that the clauses were not material to the principal issue involved.

COURT HEARS CHARGE IN BOOKMAKING CASE

OFFICERS TELL OF PLACING BETS ON TIJUANA RACES WITH ACCUSED

George Elliott was held to answer yesterday by Justice Baird on a charge of bookmaking after Officers J. F. Magee and R. Greenhill held that they placed bets with the defendant on races at Tijuana, Mexico.

The dates of the wagers, the amount under the provisions of a trust fund of \$100,000 created in his favor by Hart shortly after their separation in May, 1922.

Hart entered a demur to the suit on the ground that it was ambiguous and did not contain sufficient facts to constitute an action for action. He also filed a notice of motion to strike the complaint several chapters referring to his marital conduct toward Mrs. Hart. The widow will file a demur to the suit on the ground that the clauses were not material to the principal issue involved.

Issue of \$3,000,000 May be
Placed on Ballot

Committee Gets Debt Data
From Accountant

Fire Chief Scott was yesterday instructed by the Board of Fire Commissioners to present a report at the meeting of the board next Thursday showing the needs of the fire department during the next two years, so that the Council may be asked to place a bond issue on the ballot at the May 6 election, possibly for \$2,500,000 or \$3,000,000.

The last fire bond issue, voted two years ago, amounted to \$2,500,000, with which ten new fire houses have been completed, equipped and placed in use, nine other houses, including a new fire headquarters building on Hill street near Second street, are now being completed, and work is ready to start on the new \$1,000,000 fire-alarm system. There remain, however, many outlying districts which require fire protection. The principal one is the harbor district, which needs at least five new houses and a \$400,000 firestation in order to protect the \$200,000,000 property in that section, it was stated.

NET CITY DEBT

The net municipal debt of the city government of Los Angeles is today \$56,026,742.15, according to data yesterday submitted to the City Council Civic Projects Committee by Chief Accountant Francois Masson. The Civic Projects Committee, of which Councilman Baker is chairman, will have information to be used in deciding the bond issues to be placed before the voters at the May 6 and subsequent elections this year.

The city has an unincumbered bonding capacity for non-revenue producing bonds of \$29,584,512.50, which would be charged to the \$1,500,000 police and fire station bond issue, which will be placed on the May 6 ballot.

The Board of Public Works has also asked for a \$600,000 bond issue in purchasing sites and equipment for dispensing incinerator plants to dispose of rubbish collected from the city streets. The law permits nonrevenue producing bonds to be issued up to and including 3 per cent of the valuation of property in the city.

ISSUES DEDUCTED

The unincumbered bonding capacity for non-revenue producing bonds is \$116,188,774.80, the law permits revenue-producing bonds, such as water, power and harbor bonds to be issued up to and including 12 per cent of the total. The proposed \$20,000,000 power-harbor loan and the \$8,000,000 water-bond issue would be charged against and deducted from this unincumbered capacity.

Los Angeles municipal bonds are also marketed in New York and eastern financial capitals, as was shown by the fact that the recent \$11,000,000 block of bonds sold by the City Council were absorbed within a few days of their offering by Eastern investment houses. The bonds were sold by the Council under open competition and brought par and a low rate of interest, 4 1/2 to 5 per cent.

While the total amount of Los Angeles municipal bonds issued or authorized but not yet issued is \$103,364,827.50, this amount includes school bonds, which are largely absorbed in the school district which includes the city and additional territory, district improvement, flood-control and water bonds, so that the net city debt is but \$56,026,742.15.

W. C. Cole, 54 years of age, of 2844 East Fifth street, an employee of the shade department, was severely burned on the face, neck and arms when he fell from the driver's seat of truck No. 1, suffered a possible fracture of his right leg when a hose, breaking out of control, struck him.

H. R. Robinson and H. A. Blumthorn, owners of the plant, estimated the damage at \$40,000, according to the police. The building is the property of H. Rosenberg. The main portion of the contents of the plant is said to be valuable sample furniture.

The Games, breaking out in the shade room, gained rapid headway before the arrival of the fire apparatus and spread to the display rooms, the shade department and the main office. A fire wall dividing this section of the building from this furniture-manufacturing plant was an important factor. It was broken in preventing the spread of the flames.

Following an hour's strenuous work, firemen brought the blaze under control.

The fire which swept through the north end of the H. R. Robinson Furniture Company plant at 2001 Santa Fe avenue early yesterday morning was caused by the explosion of an oil heater in the silk-shade department, Capt. Enoe, head of the Fire Prevention Bureau, announced yesterday following an examination of the debris.

FRIEND OF MISSIONS TO SPEAK

Hollywood to Hear of
Hopes and Plans for Their
Restoration

Hollywood will turn out tonight to listen to California's poet, playwright and philosopher, John Steven McGroarty, tell of his hopes and plans to restore the Mission of the State to the old-time dignity and splendor.

The public meeting, which will be at the Hollywood Public Library auditorium, will be called at the invitation of Mrs. R. D. Shepherd.

An all-Spanish program will be given before Mr. McGroarty's address.

The entertainment will be under the personal direction of Senor Salvador Muno, assisted by Jose Cineros, Blas Orduno, Lowell Castillo, Junta Vigari, Juan Zarzuelos, Julian and Solita Ruiz and Luis Munoz, Spanish artists, brought to this country especially for the Mission Play by Mr. McGroarty.

The author of the Mission Play will explain his plan to restore the Missions—his aim to give the State all his San Gabriel holdings, including his three California plots and the new one in the course of construction.

Mr. Willoughby Rodman, a close personal friend of the poet-philosopher, will follow with a brief talk in which she will explain the Golden Scroll.

Following this an introductory address will be made by Mrs. Sloan-Croce, who will talk on the California Missions. She will introduce Mr. McGroarty.

William E. Dato, 36 years of age, brother-in-law of former Governor Canto of Lower California, of 715 South Hobart Boulevard, died yesterday at San Diego from an affection of the throat, according to members of the family.

W. E. Dato, 36, a brother and Paul E. Dato, Jr.

He leaves his parents, Mr. and Mrs. Paul Dato, of the Hobart Boulevard address, five brothers and one sister.

The body will be returned to this city. Funeral arrangements will be made later.

Marshall Neilan, motion-picture director, has been confined to his bed for three days by appendicitis. The attack came upon Neilan Monday evening just before he was to entertain a party of guests at his home. On Tuesday Neilan's condition became so serious that his physician was on the point of sending him to a hospital for an operation. Ice packs, however, alleviated immediate danger. Work on his production of "The Price of Virtue" was suspended, which had been halted. If an operation is found necessary production will have to be postponed.

M'KEE OUSTING DUE TODAY

Mayor Expected to Demand Resignation in Afternoon
Unless Official Offers it Voluntarily

The expected resignation of Edgar McKee, president of the Harbor Commission, not forthcoming yesterday, Mayor Cryer is expected to take decisive action in the harbor muddle today. It was indicated at the City Hall that the Mayor will demand McKee's resignation this afternoon before he leaves for his weekend trip unless the official fire presents it voluntarily.

Among these was Commissioner C. J. Colden, who, it has been predicted, will be named to the presidency of the board when McKee retires. Neither the Mayor nor Mr. Colden would comment last night on their conference at the City Hall yesterday. They remained silent whether it had been on the subject of the com-

mission's affairs. McKee was scheduled to call on Mayor Cryer yesterday for a conference. He failed to appear, however, and the Mayor spent the greater part of the day in conference with various persons regarding the harbor affairs.

McKee was to appear yesterday for a conference. He failed to appear, however, and the Mayor spent the greater part of the day in conference with various persons regarding the harbor affairs.

McKee's letter to the board follows:

March 5, 1924
Mr. Guy W. Wade, secretary, Los Angeles Harbor Commission, Byrne Building, Los Angeles, California. Sir:

At the instance of Mr. Edgar McKee, president of the Harbor Commission, I have this day tendered my resignation as chairman of the Harbor Commission.

I have been unable to continue their efforts to have the position that he is not guilty of any criminal act and that his resignation at this time would be, therefore, a tacit admission of wrongdoing.

The grand-jury trial into the harbor muddle was deferred yesterday until 10 a.m. Tuesday because of developments in another case demanding the immediate attention of the City Council.

Capt. Lewis Hansen, who declared he gave McKee a suit of clothes and three other witnesses subpoenaed to appear yesterday were told to appear Tuesday morning.

At the time of the trial, the Mayor and the Harbor Commission

will be in session, and the Mayor will not allow the situation to remain as it is over the week-end.

Friends and associates of McKee are unanimous in continuing their efforts to have the position that he is not guilty of any criminal act and that his resignation at this time would be, therefore, a tacit admission of wrongdoing.
